RR Institute - Bangalore India

Professional Experience

Working as a full-time freelancer from 2019-present. Check out some of my projects below that I have worked on.

E-commerce Website Project | [closm.com](#)

- Lead a team of 5 developers to develop this E-commerce project which is performing outstandingly in the market.
- Developed frontend code using Next Js framework and Tailwind CSS, backend using express-app in Nodejs, and maintaining a database in Mongo DB.
- Ensured compatibility with major browsers on mobile, desktop, and tablet platforms to deliver an extraordinary user experience.
- Developed a feature for customizing different T-shirt designs according to users' choices.
- Improved performance by resolving more than 50 critical bugs in the company's product to improve performance.

IT services domain | [codeouts.com](#)

- Developed a domain for providing services that offer web design, software development, mobile app development, and SEO services.
- Hired, trained, and effectively led a highly motivated Agile team of 5+ developers.
- Collaborating with project managers and developers to meticulously plan, design, and implement innovative features and enhanced functionality for cutting-edge applications.
- Maintained communication with clients to ensure satisfaction with project progress and outcome.
